

Stylianos (Stelios) Anastasakis

BSc Physics — MSc Brain and Mind Sciences

Working Experience

- 2023 **Frontend Engineer**, *Acmon Data*, Maintain and develop the web app of Acmon Data (Berlin remote)
- 2020 - 2022 **Web Software Engineer**, *Desquared*, Maintain and develop the websites of BOX Food, Angular 2+ / AngularJS (remote)
Agile and CI/CD working environment - Collaborated in the whole process from analysis, to coding, debugging, testing, reviewing
- 2019 - 2020 **Private Tutor**, *Teaching students Physics and Mathematics*
- 2016 - 2019 **Master Studies**, *Berlin/Potsdam*, see section below
- 2018 **Data Scientist (Working Student)**, *home24, Berlin*, Performed Machine Learning Algorithms for Fraud Detection, MySQL, R
- 2009 - 2016 **Private Tutor**, *Teaching students Physics and Mathematics*
- 2008 - 2009 **Data Entry Specialist**, *Data Entry for a tourist and commercial guide*

Education

- currently **MSc Data Analysis and Machine Statistical Learning - DAMSL**, *Mathematics and Applied Mathematics Department, Computer Science Department and FORTH, University of Crete - UOC*
Inter-Institutional Graduate Program 18-months/90 ECTS
- 2023-2024 **Machine Learning and Deep Learning Developer**, *IU Internationale Hochschule*, 4-months full-time Weiterbildung
Machine Learning - Deep Learning - Reinforcement learning - Topics in AI
- 2019 - 2020 **Full Stack Web Development Coding School**, *Social Hackers Academy*, 7-months
Course on Learning How To Design and Develop Websites
HTML, CSS, JavaScript, Databases, React.js, Node.js
- 2017 - 2019 **MSc Cognitive Systems**, *Potsdam University, Potsdam*, attended, not completed
- 2016 - 2017 **MSc Computational Sciences**, *Freie Universitaet, Berlin*, attended, not completed
- 2012 - 2016 **MSc Brain & Mind Sciences**, *School of Medicine, University of Crete*
2-years full-time | 120 ECTS
- 2004 - 2012 **Diplom Physics**, *School of Sciences and Engineering, University of Crete*
4-years Diploma | 240 ECTS

Heraklion Crete, 715 00 – Greece

1/3

Training and laboratory experience

Computational BioMedicine Laboratory (CBML)

Spring 2016 **4-months lab rotation**, *Foundation of Research and Technology (FORTH)*, Institute of Computer Science (ICS)

Title: "Methods in EEG-based brain connectivity inference."

- EEG signal processing and graph analysis
- EEGLAB-plugin development in MATLAB
- EEG connectivity metrics documentation

Department of Psychiatry and Behavioral Science

2015 - 2016 **Research assistantship**, *School of Medicine*, Division of Psychiatry

Title: "Voxel Based Morphometry analysis using SPM, Matlab"

- MRI data analysis using SPM, Matlab
- Quantitatively assess MRI grey matter volume differences

Laboratory of Visual Cognition

Fall 2013 **4-months lab rotation**, *School of Medicine*, Physiology Group

Title: "The role of attention in visual processing and how it influences neuronal interactions between distant brain areas."

- Analysis of extracellular neuronal signals and LFPs from Macaque monkey.
- Decoding neural activity in covert attention using machine learning algorithms.
- Support Vector Machines (SVM) - Matlab

Systems Physiology and Computational Neurosciences Laboratory

Spring 2013 **4-months lab rotation**, *School of Medicine*, Physiology Group

Title: "Examination of the initiation of muscle contraction in relation to the tremor oscillation through force pulse experiments in the FDI muscle."

- Signal processing and data analysis
- Experimentation with human subjects
- Matlab

Computational Biology Laboratory

2012 **Bachelor Thesis**, *Foundation of Research and Technology (FORTH)*, Institute of Molecular Biology and Biotechnology (IMBB)

Title: "Computational modeling of fear memory allocation in amygdalar neuronal populations."

- Implementation and simulation of biologically realistic neural networks
- Data analysis, Python, NEURON

Publications

Peer Reviewed Papers:

February 2014 **"Coding and decoding with dendrites."**, *Papoutsis A., Kastellakis G. Psarrou M., Anastasakis S., Poirazi P.*, J Physiol Paris. pii: S0928-4257(13)00033-8. doi: 10.1016/j.jphysparis.2013.05.003

Heraklion Crete, 715 00 – Greece

🌐 [Stelios-Anastasakis](#)

2/3

Poster Presentations:

- June 2014 **"Decoding Covert Attention from Simultaneous Recordings in Prefrontal and Visual Cortex."**, *Panagiotis Sapountzis**, *Stelios Anastasakis**, *Robert Desimone*, *Georgia G. Gregoriou*, (** = equal contribution*), in AREADNE 2014, June 25 - 29, Research in Encoding and Decoding of Neural Ensembles, Santorini
- October 2012 **"Computational Modeling of Fear Memory Allocation in Amygdalar Neuronal Populations."**, *Anastasakis S. and Poirazi Y.*, (*BEST POSTER AWARD*)., in the 7th Conference of the Hellenic Society for Computational Biology and Bioinformatics 2012 (HSCBB), October 4 - 6, Heraklion Crete
- June 2012 **"Computational Modeling of Fear Memory Allocation in Amygdalar Neuronal Populations."**, *Anastasakis S., Kastellakis G. and Poirazi P.*, in AREADNE 2012, June 21- 24, Research in Encoding and Decoding of Neural Ensembles, Santorini

Languages

- Greek **Native Speaker**
English **IELTS**, 7/9, *C1 Level*
German **Goethe-Zertifikat**, *B1 Level*
